REHAN ALI

Full Stack Developer

rehanalidevelop@gmail.com | 03438022564 | 03254747437| Lahore,Punjab, Pakistan

SUMMARY

Full-Stack Developer and Software Developer Intern with hands-on experience building modern web applications using React, TypeScript, Node.js, NestJS, MongoDB and REST APIs. Experienced in frontend development, backend API development, authentication, role-based access control, database integration, real-time communication, deployment and production troubleshooting. Comfortable working across the full development lifecycle, from building responsive interfaces to connecting APIs, databases and cloud deployments

WORK EXPERIENCE

Tech Vezoto | Full-Stack Developer Intern

Nov 2025 – Present

- Develop and maintain full-stack web applications using React, TypeScript, Node.js and NestJS. • Build reusable React components, responsive interfaces, dashboards and API-driven application features. • Develop REST APIs with NestJS, including controllers, services, authentication flows and protected routes. • Work with MongoDB and Mongoose for application data storage, CRUD operations and backend integration. • Implement JWT authentication, role-based access control, CORS configuration and environment-based API configuration. • Work with real-time functionality using WebSockets and integrate frontend applications with backend services. • Use Git and GitHub for source control, collaboration and deployment workflows. • Troubleshoot frontend/backend integration, build, environment-variable and production deployment issues.

SELECTED PROJECTS

LiveMeet — Real-Time Meeting Platform

- Technologies: React, Vite, TypeScript, NestJS, Node.js, MongoDB, WebSockets, JWT, Axios, Firebase
- Built a full-stack meeting platform with authentication, meeting management, chat and real-time communication.
- Developed NestJS backend modules and REST APIs with MongoDB/Mongoose integration.
- Implemented protected authentication flows and real-time WebSocket communication.
- Configured production frontend/backend communication, CORS, environment variables and cloud deployment.

EDUCATION

Intermediate / 12th Grade | Government College of Science Lahore

Completed in 2024

KEY SKILLS

- **Frontend:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Vite, Tailwind CSS, Material UI, HeroUI, React Router, Axios
- **Backend:** Node.js, NestJS, REST APIs, JWT Authentication, Guards, CORS, WebSockets, Multer
- **Database:** MongoDB, Mongoose, PostgreSQL, SQL fundamentals, Supabase
- **Tools & Deployment:** Git, GitHub, VS Code, Postman, Firebase, Firebase Hosting, npm, Docker fundamentals
- **Other:** Responsive Web Design, CRUD Operations, Role-Based Access Control, API Integration, Environment Configuration, Debugging
